ISAIAH DAVID

JUNIOR FRONT-END WEB DEVELOPER

Self-taught Junior Front-End Developer with hands-on in designing, developing, testing, and maintaining scalable, appealing, and high-performance websites, applications, products, and services. Committed to excellence, adept at writing clear, reliable, testable, and maintainable code. Highly organized with a keen eye for detail, adept at prioritizing and allocating resources to meet all deliverables in dynamic environments. Exceptionally dedicated professional with impressive communication, interpersonal, and relationship-building skills, thrives in fast-paced, cross-functional settings.

PROJECTS

- Completed various projects independently, creating websites and web applications via HTML, CSS, JavaScript, Java, and React.
- Designed, developed, and integrated APIs to improve website and application functionality.
- Directed the end-to-end process, from initial concept to design, development, testing, and deployment.
- Researched user needs to establish product roadmaps and determine required functionalities.
- Produced user-friendly, cross-browser-compatible interfaces for optimal user experience.
- Designed tailored features and functionalities to enhance usability, make products intuitive and easy to navigate, and create seamless user journeys.
- Conducted testing and debugging of web applications to ensure compatibility across browsers and devices.
- Maintained products, troubleshooting technical issues, and re-designing websites and applications to increase performance and maximize functionality.
- Performing design and code reviews, identifying pain points, and creating enhancements, continuously evolving products.

PROFESSIONAL EXPERIENCE

VIDEOGRAPHER, 3D MODELER, AND MOTION GRAPHICS DESIGNER | 2016 - PRESENT FREELANCE

- Planning and executing video and motion graphics projects for clients across industries, directing the full-cycle process from requirement gathering to delivery.
- Leading client communication, collaborating with client team members to gather requirements, define guidelines, establish deliverables, and certify solutions are aligned with the client's overall brand image.
- Partnering with Web Developers in incorporating motion graphics and animations into website and web applications, ensuring seamless integration of elements.
- Defining priorities and allocating resources, balancing multiple projects and deliverables simultaneously, and delivering within timescale and scope without exception, exceeding all stakeholder expectations.

PHYSICAL THERAPIST ASSISTANT | 2022 - PRESENT PARK PHYSICAL THERAPY ASSOCIATES

- Providing patient care and rehabilitation services, working alongside cross-functional care teams in treating and caring for a large patient population.
- Facilitating screenings and assessments, assessing patient circumstances to determine physical therapy requirements, and helping develop tailored treatment/training programs.
- Recording patient response and progress, re-evaluating outcomes and helping Physical Therapists refine treatment plans to maximize positive outcomes.
-

PACKAGE HANDLER | 2022 FEDEX

- Handled and sorted packages in a highly dynamic environment, working collaboratively with team members to meet productivity goals and drive customer satisfaction.
- Prioritized and allocated resources efficiently, demonstrating exceptional attention to detail, organizational skills, and time management aptitudes.

PHYSICAL THERAPIST AIDE | 2019 - 2020 MAXIMUM WELLNESS THERAPY REHAB

- Ensured the provision of high-standard patient care, supporting therapists in performing all therapy aspects while accomplishing various administrative and client-facing duties.

HOST | 2018 - 2019 OLIVE GARDEN

- Greeted and seated guests, working closely with both front- and back-of-house team members to provide memorable service and exceed expectations.
